

Home Energy Audit Toolkit Feedback Form

The Home Energy Audit Toolkit has been developed to assist you to reduce your home's energy use and its associated costs. HEAT allows you to conduct the audit yourself, in your own time and space, and in doing so gain a good understanding of where the energy is being used. Every home is different with numerous opportunities for reducing energy costs. This toolkit contains practical tools and user friendly information and that will help you identify these opportunities.

We are interested in your experience using the toolkit and are keen to identify areas for improvement. We would appreciate your feedback.

Please return the Feedback Form with the toolkit where it has been borrowed from, or alternatively post it to:

Home Energy Audit Toolkit
Hobart City Council
GPO Box 503,
Hobart, TAS 7001.

Thank you for your comments.

How did you find out about HEAT?

Did you find the toolkit useful?

What did you like about the toolkit?

What did you least like about the toolkit?
